3108 Defensive Programming

Title: **No Password**

Description: *When cancelling a ticket, a user is only required to input their associated email address. This is critical because if another user knows the email address, they can go in and delete the other user's concert ticket.*

CVSS

Vulnerability 1

Score	Severity	Version
10	Critical	NP-2025-0001

Demonstration:

Title: **Leaked_Logs.txt File**

Description: A hidden file that silently records all ticket transactions, including sensitive user information such as full names, emails, and full payment details (card number, expiration date, and CVV). This is a critical vulnerability because it stores unencrypted personal and financial data in an easily accessible file without user consent or awareness.

CVSS

Vulnerability 2

Score	Severity	Version
10	Critical	LL-2025-0001

Demonstration:
